Practice and Graded Quizzes

Practice Quizzes

You will have a chance to practice and test your knowledge of the content for each module by taking the ungraded practice quizzes. We highly encourage you to take these quizzes in preparation for your weekly graded quizzes. You can take these ungraded quizzes up to three times, and you can review your attempts and read the feedback provided.

Practice quizzes do not affect your final grade.

Graded Quizzes

Every week, you are required to complete one (1) graded quiz consisting of sixteen (16) multiple choice and matching type questions. The goal of these quizzes is to assess your understanding and mastery of each week's Lesson Notes and Required Readings. Quizzes are automatically graded, and the grade is made available to you in your online gradebook. You are granted one (1) timed attempt per quiz and you are expected to finish that attempt in one sitting over the course of forty-five minutes (45 minutes length). The deadline for graded quizzes is 23:59 GMT on Days 7, 19, 26, 33, 40 and 47.

Check the Points Distribution table in the [Course Syllabus](#) to view the points and grades earned upon completion of graded quizzes.
